For parents and teachers

Addition hives

1. $6 + 1 = 7$

2. $8 + 2 = 10$

3. $17 + 3 = 20$

4. $7 + 3 = 10$

5. $12 + 1 = 13$

6. $3 + 10 = 13$

7. $6 + 14 = 20$

8. $6 + 10 = 16$

9. $17 + 2 = 19$

10. $1 + 7 = 8$

11. $1 + 6 = 7$

12. $5 + 6 = 11$

Beequation Kids

Using this in class

For parents and teachers

Using this in class

- Put one hive on the board as a warm-up, let children solve it in pairs, and ask them to explain which two numbers they used.
- Begin with an addition hive. Children can use counters or draw dots before writing a number sentence.
- For multiplication, choose tables the class has already explored through equal groups and arrays.
- A timer is optional. A clear explanation matters more than finishing first.

More puzzles with Indie the honeybee. Play free at in.beequation.com, or look for Beequation Kids on your phone or tablet: no ads, no tracking, no timers.
